## WHO WE WORK WITH

ASL's pursuit in delivering a high standard of support to customers ensures we work with those who deliver excellence in terms of customer service, support and turnaround.

**Our partners and suppliers range from maintenance providers to OEMs such as:**

We continue to grow our network of strategic partners to improve the quality and range of services we offer. Our aim is to grow our business to support future investments and deliver our through-life support promise to our customers.

In building on our strategic partnership we work collaboratively with our partners to be more successful, competitive, cost-effective for a wider and diverse product range and we utilise each other's skill sets to maximum advantage giving back that value to the customer.

## TOTAL REPAIR AND OVERHAUL SOLUTIONS

We provide repair and overhaul services from a variety of sources including our own in-house mechanical and electrical Overhaul and Repair Workshops. All our repair and overhaul workshops have the required accreditations and approvals to meet the customer's requirements in this quality driven environment.

## TAILORED REPAIR AND OVERHAUL PROGRAMMES

Focusing on costs, customers are looking for a strategic partner offering an integrated approach and through-life support to deliver their requirements. Our tailored programmes ensure that we deliver the cost reductions required, and support packages to ensure through-life operational availability.

Repair and overhaul programmes are managed and delivered through our in-house Mechanical and Electrical Workshops, complemented with global OEM approved repair and overhaul workshops – providing the desired flexibility during the repair process.

Due to throughput volumes on a number of programmes, we are able to deliver cost reductions which we immediately pass onto the customer. Should the programme benefit from a Long Term Agreement this gives the customer piece of mind when determining their repair and overhaul budget requirements.

### The programme includes:

- / Tailored component repair management support suiting the needs of the customer
- / Global repair facility location
- / Cost Savings and LTA benefits
- / Competitive repair pricing from a number strategic partners

## ABOUT ASL

ASL has been established for over 40 years, we have Head Offices in Horsham, United Kingdom and together with our international offices we serve our global customers in the Middle East, Asia, Oceania, United States, Europe and South America. With over 80,000 sq.ft. of warehousing for our 350,000 lines of stocked components, we provide an integrated approach to total platform support.

Many years of experience supplying, stocking and repairing equipment and components has resulted in superior levels of industry and product knowledge. Our dedicated team are ready to rapidly respond to ensure through-life support for all your requirements, regardless of size.
