SPARES AND COMPONENTS

TAILORED SOLUTIONS FOR EVERYDAY REQUIREMENTS

With over 40 years of industry experience in supplying aircraft parts for both fixed wing and rotary wing aircraft ASL can supply 350,000 line items from stock – from complete aircraft and engines to consumables and small piece parts; with a further 1m+ components from our supply chain network.

Our international offices enhance the service to our customers and enable us to provide tailored solutions to their everyday critical requirements.

Managing the supply chain efficiently and effectively, ASL selects and works closely with preferred and partnered suppliers and sub-contractors. To complement our in-house spare parts and components the consignment of spare parts stock has been established at ASL for more than 40+ years.

Analysis of our customer requests during the last 5 years has enabled us to objectively purchase surplus stocks and new components that fit the customers stock profiles. This consists of the highest demand components for our aerospace and defence customers.

Products/Equipment Supported:

- | | |
|---|--|
| / Airframe Components & Equipment | / Fuel System Equipment and components |

SPARES AND COMPONENTS

A SINGLE POINT OF CONTACT

ASL has been proactive in establishing the future needs of the market and continues to aggressively pursue a stock availability strategy. We will continue to follow a strategy of purchasing and locating the 'impossible to source' aircraft parts, components, supplies and specialist equipment.

Utilising ASL as a single point of contact in the supply chain for all procurement and spares provisioning, helps reduce administrative burdens and financial constraints, and provides prompt pricing and availability for many thousands of parts. With our drive to enhance systems and processes, approval to AS9120 gives our customers piece of mind when purchasing spares and components from ASL.

LOGISTICS AND DISTRIBUTION

Utilising our bespoke inventory management system, we ensure your products are packed and despatched, reaching their destinations swiftly and efficiently. With a number of logistics partners ASL can despatch 'same-day' all over the globe to our international customer base.

ABOUT ASL

ASL has been established for over 40 years, we have Head Offices in Horsham, United Kingdom and together with our international offices we serve our global customers in the Middle East, Asia, Oceania, United States, Europe and South America. With over 80,000 sq.ft. of warehousing for our 350,000 lines of stocked components, we provide an integrated approach to total platform support.

Many years of experience supplying, stocking and repairing equipment and components has resulted in superior levels of industry and product knowledge. Our dedicated team are ready to rapidly respond to ensure through-life support for all your requirements, regardless of size.
