

SPECIALIST MILITARY STOCKIST

Aerospace Logistics Ltd (ASL) has been involved with supporting the Hawk aircraft since its first inception in the mid-1970s to the present day. From the very early export customers of the Mk 50 series, up to the current Mk 100 twin seat series, (still in production), we have been supplying spares on a regular basis to operators in Europe, the Middle East and the Far East. Purchasing Ex-UK MoD surplus spares concerning the Hawk, we have built up a large and impressive stock holding of parts, including many airframe and engine components.

With our current warehouse space now standing at over 100,000 square feet, we have in stock many components from the following systems.

- | | |
|----------------------|-----------------------------|
| / Airframe | / Camera & Reconnaissance |
| / Heat Exchanger | / Ram Air Turbine |
| / Avionics | / Engine (Adour, all Marks) |
| / Hydraulic System | / Electrical Systems |
| / Air Conditioning | / Undercarriage |
| / IFF System | / Fuel Control Unit |
| / Air Starter | / Weapons/Pylons |
| / Lighting | / Ground Support Equipment |
| / Aerials & Antennas | / Wheel & Brake |
| / Oxygen Systems | / General Consumables |

Furthermore, ASL has been providing Repair and Overhaul Support Solutions for its global customers from our in-house capability and partnered OEM and MRO approved sub-contractors.

WHY ASL

ASL are experts in supplying, sourcing and repairing equipment and components. 100,000 sq.ft of fully stocked warehousing comprising over 500,000 lines of components, and many millions more available through a global supply chain network, ASL provides its customers with through-life support for your total peace of mind.

/ GLOBAL REACH

With a Head Office in the United Kingdom, international offices and a global customer base, ASL employs an integrated approach to total platform support.

/ PROVEN EXPERTISE

From spares and components and electronic engineering to repair & overhaul and mechanical engineering, ASL will support you via its dedicated team of experienced individuals.

/ EXPERIENCE

Many years of experience supplying, sourcing and repairing equipment and components has resulted in superior levels of industry and product knowledge.

/ QUALITY APPROVED

We continually strive to enhance our systems and processes, and the associated certifications are testament to quality management.
