

SPECIALIST MILITARY STOCKIST

Aerospace Logistics Ltd (ASL) is a specialist military stockist and supplier of fixed and rotary wing platform spares, with a record of buying Ex-Government stock. The company has recently invested heavily in purchasing a substantial number of Sea King helicopters, this includes all former Royal Australian Navy models and Ex-UK versions.

To date, we have acquired some twenty (20) complete platforms and have also bought the accompanying spares package, most of which is in new/new surplus condition. We have been supporting the Sea King for over 30 years and at present we are working with operators in Asia, Europe, the Far East, North and South America and will continue to do so well into the foreseeable future and decades to come. These versatile machines are still widely used in the ASW role, SAR and Transport/Troop deployment.

The company currently has five warehouses comprising some 100,000 square feet of space, housing the following equipment:

- | | |
|--------------------------------------|--|
| / Flying Controls | / Fire Extinguisher System |
| / Landing Gear | / Main Rotor Head and Blades |
| / Hydraulics | / Main Rotor Drive |
| / Environmental Controls | / Tail Rotor Drive |
| / Air Services | / Tail Rotor Head and Blades |
| / Ice and Rain Protection | / Electrical Power Supplies and Distribution |
| / Instrumentation | / Lighting |
| / Fire and Emergency Systems | / Communication Equipment |
| / Furnishings and Interior Equipment | / Radio/Radar Landing Aids |
| / Airborne Lifting | / Surveillance and Search |
| / Towing Equipment | / Automatic Flight Control |
| / Monitoring System | / Flight Navigation Systems |
| / Power Plant | / Ground Support Equipment |
| / Fuel System | / Electrical Cable Breakdowns |
| / Oil System | / Consumable and Repair Materials |

Many of these items are suffering from obsolescence, therefore ASL are very active in overhauling and repairing as many of these LRUs as possible, as we have taken delivery of a great deal of test equipment and CMM information. We work with many of the original OEMs and approved MRO subcontractors providing a diverse range of repair and overhaul solutions.

If you are an Operator, MRO or OEM and are looking for Sea King parts, please Contact an ASL specialist today - we have exchange and repair programmes tailored to customer's requirements and are able to despatch components on a same day basis around the globe. We employ experienced staff, possess a very comprehensive library and are based in West Sussex, UK, within easy distance from Gatwick Airport.
