

Job Description

Position Title Mechanical Workshop Engineer

Department Mechanical Workshop

Hours Monday to Thursday 08.30 – 17.00
Friday 08.30 – 16.15
Flexible mindset to work additional hours depending on workload

About ASL:

ASL is an ever-growing international company specialising in the support of legacy equipment across the military and defence product range.

We operate from four sites within the Surrey and Sussex Area and have international offices in our key market areas.

Our purpose is keeping things moving to save lives and protect what matters. We live by the philosophy of 'Never a problem, always a solution'.

The Role:

This is a varied role, and you will get involved in all the mechanical workshop activities including, repair assessment, incoming inspection, reduce to produce, component assembly, component modification, hydraulic and pneumatic testing.

Key Responsibilities:

- Perform a preliminary inspection of incoming components
- Disassemble components for repair assessment and identification
- Determine material to be used in repair process
- Carry out repairs in accordance to repair instructions and component maintenance manuals
- Carry out functional testing – Hydraulic and Pneumatic
- Assemble components post repair / overhaul
- Carry out Reduce to Produce activities
- Daily, Weekly and Monthly data reporting

Requirements:

- Hands-on experience in the Mechanical Engineering Workshop environment (Aerospace Engineering is advantageous but not essential)
- Good organisational and planning skills with proven track record of project / task prioritisation
- Good problem-solving skills
- Good technical ability
- Good understanding of customer requirements with proven track record in meeting customer expectations
- Knowledge of hydraulic and pneumatic systems
- Knowledge and ability to read and interpret technical documentation
- Willingness to adopt flexible work patterns when required to meet business needs
- Willingness and ability to work with Engineers and staff at all levels
- Willingness to work with all levels within the organisation
- A passion for Aircraft and/or Military vehicles
